

Developing scissor skills

Activity card 7

Learning objective

Cutting out a shape

Skills to be taught:

- poke a hole in the centre of the shape to be removed with the pointed end of a pencil.
- insert the lower blade of the scissors into the hole and cut to the edge of the shape.
- cut round it carefully and remove it.

Activities

Cut out shapes to make apertures for craft activities - picture frames, windows etc.

Cut out eye shapes in a mask
